-  Additional Stands which may be released on demand
-  Central area subject to 2.9m height restriction
-  Most likely delegate routes
-  Upper Level Support Pillars
-  SEE TABLE
Min Width 990mm !

EXHIBITOR NOTES

- 1) Stands with same letters can be added together to form a larger exhibition space.
- 2) where indicated additional space may be included for multiple stands (but may contain upright pillars).
- 3) Central area is restricted height (2.9m) but this the lowest point (at the beams), areas between beams have a bit more height but you must work on the assumption of no kit higher than 2.9m. These areas are white walled and floored and very well lit.
